

RAIKANE MORE

BENG INDUSTRIAL ENGINEERING 2ND - UNIVERSITY OF THE WITWATERSRAND,
2021

Brits

SUMMARY

I strive to give an insightful perspective to the Engineering and Technology Transformation field. I hope to do this by leveraging all that I have learnt throughout my time in university, my leadership qualities and my ability to see problems from an analytical perspective. The time I have spent holding various employment positions, while being a student, have moulded me into a candidate who can get into an organisation and hit the ground running. As a creative and artistic person at heart, I am able to consider human interactions experiences and coding when solving problems.

SKILLS

Technology Tools

- Microsoft Office Suite,
- Python,
- Matlab,
- Canva,
- AutoCAD.
- R
- SQL

Interpersonal Skills

- Knowledge sharing,
- Teamwork and collaboration,
- Team leadership and coordination for problem solving.

- Top 3 Best Performing Sales Agent
 - Campus Africa | 2019
- Distinctions in Material Sciences - MECN2010
 - WITS | 2019
- School Entrance Scholarship
 - WITS | 2017

WORK EXPERIENCE

CAMPUS AFRICA | SEPT 2019 - CURRENT

Sales Representative & Building Ambassador | 49 Jorissen Student Residence

My Duties:

- Representing the 49 Jorissen Student Residence brand and explaining its product offerings to all prospective clients, ie: students looking for accommodation,
- Making sure that students looking for accommodation choose 49 Jorissen Student Residence as their choice of accommodation for their academic year,
- Guide clients throughout the application/on boarding process of the 49 Jorissen Student Residence.

Business Impact:

During my time as a Sales Representative, I have successfully acquired more than 60 students who chose 49 Jorissen Student Residence as their residence of choice - with this acquisition, we made revenue of more than two million rands. In the year 2020, I was part of the team which was able to fill up the entire building, having more than 450 units, in a period of one month.

Administrator and Student Leader | 49 Jorissen Student Residence & YMCA

My Duties:

- Signing in new tenants of 49 Jorissen & YMCA Student Residences, and perform unit inspections when they eventually sign out,
- Assist new tenants in the signing of their leases,
- Planning and coordinating multiple events aimed at improving the experience of all 49 Jorissen Student Residence residents.

CAREER GOALS

Short and Medium Term

- To use the knowledge I have learned throughout my university years in real corporate environments to add tangible business value that impacts the lives of real customers.

Long Term

- Move to an executive role in which I will be able to have a global and international impact on technology and digital transformation.

LANGUAGES

English
SeTswana

Benjamin More
Safety Officer, Kgolete Sheq
Consultant
(+27) 83 701 6184

- Liaison on multiple matters between Campus Africa management and their tenants; some of these matters being: building rules and procedures, quality assurance and service delivery complaints from tenants, and COVID19 regulations,

Business Impact:

As an administrator, my work ensured that all records were correctly captured, signed and stored; significantly improving all our tenants' data management - a task many organisations struggle with. The many events I helped organise, in a collaborative effort with my team, played a strong role in growing the reputation of 49 Jorissen Student Residence.

KGOLETE SHEQ CONSULTANT | DEC 2017 - JAN 2018

Part-time Administrator

My Duties:

- Filing and other general office duties.
- Compiling safety files under supervision of Kgolete Safety Officer
- Design posters using Canva and Word.

Business Impact:

During my time as an administrator, I leveraged my good understanding of technology and used the Microsoft Office Suite to create multiple safety reports templates. These templates saved Safety Officers a lot of time when they were capturing their findings from safety inspections. Previously, the Safety Officers did not have any templates to work from and this meant that they had to start from the ground up each time.

EDUCATION

BACHELOR OF ENGINEERING, INDUSTRIAL ENGINEERING

University of the Witwatersrand | SOUTH AFRICA | 2021 -

DATA SCIENCE & MACHINE LEARNING WITH R FROM A-Z MASTERCLASS
